

YOUR DARTMOOR ACTION PLAN 2015 YEAR 2

PRIORITY

Farming and Forestry

What we are trying to achieve

A policy framework for upland farming that supports sustainable farming practices and National Park purposes

Update 2015

DaCC - New Countryside Stewardship scheme in place but not suitable for most hill farms plus much reduced budget suggests pillar 2 funding for hill farms will decline. Offers to amend scheme in place but may not be actioned by Defra. Completed.

How are we going to do it?

001 Work with partners to influence and shape the cap and its implementation through national programmes to ensure adequate and appropriate support for the South West Uplands

Who will deliver it?

Lead organisation (in bold) and partner organisations

South West Upland Federation

Dartmoor National Park Authority; Dartmoor Commoners Council; National Farmers Union; Country Land and Business Association; Royal Society for the Protection of Birds;

How will it be resourced?

Update 2015

DNPA - 3 areas of common to be pilots in a HLF partnership bid to test the delivery of intergrated outcomes developed through a shared vision at a local level (Our Common Cause). NE will be adopting the outcomes approach in developing new agri-environment schemes on commons.

HE - Historic England continue to provide regular advice and support to the Moorland Vision mainly through both direct liaison with DNPA, NE and the farming community and through ES /CS consultations.

Update 2015

DaCC - Problems remain for some agreements on common land. DaCC has raised the issue with Natural England. The new Basic Payment will be provided to commons in a different way than SPS. New procedure is one reason BPS payments are delayed.

DNPA- Moorland Mangement Forum was held in Oct 15 hosted by Sheepstor Common. Management of the common was discussed, including some recent aerial spraying for bracken control. Stocking levels and TB plans were also discussed. One area of concerne was about the increase of recreational events on the Common and the effect this has on the landscape and local farmers.

MOD - Ongoing – business as usual.

Update 2015

MTMTE PA7 – Ponies, Pounds and Driftways: Works have been agreed at four pounds and quotes are being sought from suppliers once the initial estimating exercise has been completed. Discussions are ongoing with owners in the next phased intake to agree the scope of works.
DaCC - Number of unmarked ponies has declined to a level not recorded recently. This success due to efforts of local commons associations and pony keepers.

Update 2015

The development of a peatland restoration PES scheme for Exmoor is nearing completion and it should be released to the land-owners concerned this year. This scheme is for Exmoor but the principles will be applicable to Dartmoor. The next step will be to use the data from the Dartmoor monitoring sites to calculate the possible value of the ecosystem services provided by the restoration which has been carried out on Dartmoor and to price this accordingly within a future scheme developed for Dartmoor. The time scale for this work is at least 2-3 years post restoration, the longer the run of data the better the valuation of the services provided will be.

Update 2015

DBP - Final Habitat Delivery Plan due to be completed this winter; Funding bid being developed for successor to Two Moors Threatened Butterfly Project; Integrated Management Plans for two main rhos pasture valley systems being written this winter as part of the MTMTE Natural Networks Project.

MTMTE PA2 – Haymeadows: Guided walks have been completed and a video highlighting Haymeadows produced in association with the DNPA. MTMTE has been working with advisors and stakeholders over the last quarter during the Haymeadows’ peak season to help shape Agri-Environment Schemes and land management. We’re also supporting the Devon Wildlife Trust’s work on their new Bellever Moor and Meadow nature reserve, leased from the Forestry Commission under a 25 year management agreement. It provides a strategic link between the two PA2 haymeadow clusters at Postbridge and Bellever and is open to the public.

MTMTE PA3 – Natural Connections: All partners are fully engaged but we are catching up with compiling Integrated Management Plan contents. Volunteers will be deployed at a more advance stage of the project once management programmes are agreed and put in place.

| Update 2015 | | | | |
| Volunteer input continues to support management for habitats and species on key sites and is planned next year for monitoring mires restoration sites and invasive species control. MTMTE – The Scheme has a £140,000 target for Volunteering input (equivalent to 2,800 ‘unskilled’ days). There are currently 84 registered volunteers whom have kindly given: 174 ‘Unskilled’, 61 ‘Skilled’ and 11 ‘Professional’ days, equivalent to £21,700. Project PB6 – Managing Volunteers specifically is slightly behind schedule as we’ve found that individual project needs have been less than forecast at this stage. A detailed volunteer plan is being mapped out in 2016 with linkage to other organisations’ activities and opportunities. | | | | |

| Very successful web-based appeal to public for records with over 1300 received; No further tagging possible this year, but associated press releases, guided walks and events carried out during the summer months; talks with RSPB regarding birds interpretation at Haytor Visitor Centre started. MTMTE – ‘Wildlife’ spans six projects in the Scheme; all of which are well underway. PA1 – Moorland Birds specifically targets the Red Backed Shrike and other moorland birds. An alternative project was submitted to HLF in November as the Red Backed Shrike did not return to nest in 2015. This alternative project focusses on moorland bird surveys (inc. Whinchat) in order to maximise the use of external funding in the meantime. A further opportunity exists to capitalise on any returning Red Backed Shrikes in the 2016 nesting season. | | | | |

| <p>Update 2015</p> <p>MTMTE PB2 - Parishscapes: Six of the fourteen parishes are engaged with the project. Ashburton received their funding for year 1 last quarter and have begun guided walks around the town, exhibitions of artwork and research findings to tie-in with the food festival. North Bovey have indicated a change in their Parishscape proposals. Their previous Parishscape project ideas have mostly been zero-cost and as such they have expressed an interest in using their Parishscape funds to develop part of the village hall to provide study-space, computer facilities, resources and a meeting area to enable local interest groups to meet and carry out research and other activities. Lustleigh have moved to the stage of obtaining quotes and costs associated with their project ideas. The Pethybridge Woods management plan has been partially completed by one of the Scheme's Eco-skills volunteers and our MTMTE Community Ecologist has offered to complete this report in early October. Lustleigh have also completed restoration and conservation of the parish tithe map. The MTMTE Community Heritage Officer met with Moretonhampstead in July and another meeting is scheduled in September to further develop a Parishscape project. It is anticipated that the project will concern 'buildings of Moretonhampstead' and hopefully will include Moretonhampstead History Society and their work on Doccombe. Buckland in the Moor continue developing a project that focuses on the restoration of the ten commandment stone and Bovey Tracey are developing their initial ideas. The Pony Heritage Trust is keen to be involved, as well as the Bovey Tracey Heritage Trust and the Guild of Crafts as well as local artists.</p> | | | | |

The development phase of the All the Moor Butterflies project is going well and progressing on time and to schedule. The majority of the major elements have been completed, with the remaining nearing completion. Landowners, conservation professionals and volunteers have all been consulted with and the results are currently being written up. Schools have been contacted and new partnerships made. Plans for the practical habitat management are being drawn up with partners. All of the pilot events, talks and workshops have been delivered and are currently being evaluated. The final bid documents are currently being written up, including an Audience Development Plan, Activity Plan, and Management and Maintenance Plans, for submission to the Heritage Lottery Fund in February.

Update 2015

MTMTE - The beginning of the second MTMTE year sees six of the fourteen parishes (over 5 years) engaging with the project. Ashburton received their funding for year 1 last quarter (£3600 of a £4000 Parishscape grant) and have begun their project. Activities scheduled taking place in this quarter include guided walks around the town, exhibitions of art work and research findings to tie-in with the food festival. North Bovey has indicated a change in their Parishscape proposals. Their previous Parishscape project ideas have mostly been zero-cost and as such they have expressed an interest in using their Parishscape funds to develop part of the village hall to provide study-space, computer facilities, resources and a meeting area to enable local interest groups to meet and carry out research and other activities. Lustleigh have moved to the stage of obtaining quotes and costs associated with their project ideas. The Pethybridge Woods management plan has been partially completed by Eco-skills volunteer Patrick, although as he has now moved to full-time employment. Our MTMTE Community Ecologist has offered to complete this report in early October. Patrick's report has been forwarded to Lustleigh to enable them to start obtaining costs for some of the work outlined. Lustleigh have submitted their first official application for funds for the restoration and conservation of the parish tithe map. The MTMTE Community Heritage Officer met with Moretonhampstead in July and another meeting is scheduled in September to further develop a Parishscape project. It is anticipated that the project will concern 'buildings of Moretonhampstead' and hopefully will include Moretonhampstead History Society (MHS – whom had previously withdrawn from MTMTE) and their work on Doccombe. The CHO has requested to attend a Parish meeting in Buckland in the Moor to continue talks on developing a project that focuses on the restoration of the ten commandment stone. The CHO is also meeting Bovey Tracey again in the next quarter now that all interested parties have been approached. The Pony Heritage Trust is keen to be involved, as well as the Bovey Tracey Heritage Trust and the Guild of Crafts as well as local artists.

Update 2015

We sought for rail service enhancements through the Greater Western franchise process by requesting a priced option for regular services to Okehampton. The cost (confidential) is a seven figure number. Priced options are expected to be funded by the body requesting it (and their partners) but it turned out to be beyond our means. The DfT made no requirement for services within the direct award franchise when it commenced in September 2015. We are engaging with community as described in Priority 128, below. In other areas of work we are progressing with the Tavistock reopening project by undertaking the pre-requisite studies to support a Nationally Significant Infrastructure Project Development Consent Order and this work is expected to continue during 2016. Support of Devon and Cornwall Rail Partnership is ongoing and they continue to promote access by train generally. We were successful in achieving a commitment through the franchise for a frequency increase in the local trains service on the Riviera Line between Exeter and Paignton where this will improve from 1 local train per hour to 2 local trains per hour in each direction from December 2018; this allows better access to DNP via Newton Abbot as a gateway (in combination with Granite & Gears improvements such as A38 bridge) and may also benefit from a new station on that line which is proposed at Marsh Barton, expected to open in 2017, which brings some residential areas of Exeter within easy reach of train services. We have also undertaken substantial station improvements at Exeter St Thomas station, as part of INTERREG Citizens Rail, which can serve as an interchange with bus services to Okehampton.

Update 2015

Devon Rural Housing Partnership has continued to work with local communities to identify housing needs and opportunities to deliver these. The housing need survey for Buckfastleigh was completed in November 2014. The report identified a need for thirty-nine affordable homes within the next 5 years: Current: Twenty-six households
Future (within 5 years): Thirteen households

- A housing need survey has been commissioned for Ashburton.
- A housing need survey has been commissioned for Widecombe-in- the Moor.
- The RHE has supported the community group at Moretonhampstead who are keen to identify the level of housing need and interest in self-build for their community.
- The RHE has continued to input into the pre-development process at a number of locations across the moor as required.

The RHE has continued to work closely with Dan Janota at DNPA to explore self-build opportunities and support individuals and community groups interested in embarking on a self-build project by:

- Continuing to administer the self-build register (c.80 households);
- Continuing to assess households' circumstances and to clarify and follow up inconsistencies in registrations;
- Continuing to be the first point of call for enquiries generated by the register or other publicity about self-build. We are the first point of call for general enquiries. The numbers have fallen since the initial launch but we have at least one enquiry a day;
- Jointly with DNPA support a number of pilot schemes notably those based at South Brent, Liverton, Hennock.
- Jointly with DNPA produce a newsletter for households on the self-build register.

Jointly with DNPA compile a list of professionals with a track record of work in Dartmoor prepared to work with self-builders. This will be published on the DNPA website to provide information for self-builders.

| Help meet identified needs for local affordable housing and other services | 128 Assist communities with exploring alternative transport options, including community transport schemes, through advice on funding, governance arrangements and making best use of existing transport. | Devon County Council | Funding identified | 2019 |

Update 2015

DCC - We continue to liaise with and support community groups. Newton Abbot Community Transport Association has taken over one minor local bus service.

DCC - Whilst this is probably meant to refer to community transport in terms of flexible bus/taxi style operations there is also a similar approach being taken to rail. DCC is now engaging with community groups in/around Okehampton about the future of the rail line and how the community can become more involved. The engagement is challenging because there are multiple viewpoints, expectations are high and the budget is under pressure.

Identify a pilot community on Dartmoor. | Devon Health & Wellbeing board Devon County Council;West Devon CVS;South Hams CVS;Teignbridge CVS;Emergency Services; | Subject to funding | 2016 |

Update 2015

The Devon Health and Wellbeing Board was formed from its Shadow Board in April 2013, the Board has produced a Joint Strategic Needs Assessment and Joint Health and Wellbeing Strategy which are published on the Devon Health and Wellbeing Pages and address many of the issues in the priority. <http://www.devonhealthandwellbeing.org.uk/>

The HWBB Board has a Compact with the Local Nature Partnership and there is strong cross over with the Naturally Healthy theme of the LNP. Devon County Council Public Health has grant funded Dartmoor National Park to develop this work by creating opportunities for a greater diversity and number of people to be naturally active by working collaboratively with local communities and partners in the National Park. This work has focussed on Buckfastleigh. There is no further funding commitment. There may be other work relating to supporting independent living outside the work of the Health and Wellbeing Board in particular through the District Councils.

| Connect people with nature | 133 Protect dark night skies through continuing to work with local communities on the part-night operation street lighting programme. | Devon County Council Local Communities; | Funded | 2018 |
| Update 2015 All street lighting owned by Devon CC away from A and B roads is now switched off between 0030 and 0530 except for areas that have remained lit as requested by local communities, other than in Barnstaple and Exeter which are due for completion by Spring 2016. A £10m grant from the Department for Transport has been secured to upgrade all lighting that is not part lit to LED. Procurement will be finalised in the New Year and installation expected to commence from March 2016 and take 2 years to complete. LED provides greater colour rendition and significantly less light splay compared to sodium or metal halide lighting. | | | | |

Update 2015

Two groups are involved in Buckfastleigh - Buckfastleigh Town Council and Lower Town Road Flood Group.

Buckfastleigh Town Council is using its existing Community Emergency Plan to act in case of flooding. The Lower Town Road Flood Group is also drawing up their own specific flood plan for the area.

Their Town Council group is made of the Town Councillors and the clerk. The council purchased sand bags and sand stores as well as high viz jackets etc. as part of the equipment grant.

One river gauge installed in the autumn at Brook Mill bridge sending warnings to both groups. There is also a camera installed on property along the river Mardle looking over Station Bridge as another way of checking the river levels.

Flood warden training took place in January 2015.

The Tavistock community has proven difficult to engage and no progress has been made.
